## *Report of Superintendent of Schools*

Milan, N. H., Feb. 1, 1934

### TO THE SCHOOL BOARD OF MILAN:

I submit, herewith, the annual report of the Superintendent of Schools, it being the fourteenth in the series of such reports.

### INSTRUCTION

The School year, 1933-34, opened with two changes in the teaching corps from the previous year.

Miss Grace Enman, a graduate of Keene Normal in the class of 1933, was assigned to the Jewett School and Miss Carrie Remick, a Plymouth Normal graduate, took over the school at West Milan. After a few weeks of the Fall term, Miss Remick, on account of ill health, resigned her position, and Miss Marvel Proctor, a graduate of Keene Normal and a teacher of several years' experience is now carrying on the work in this school.

Standard Achievement Tests have been given to pupils in all schools throughout the year, and in most instances the pupils have attained marks equal to or better than that demanded for their particular grade.

The instruction, order and discipline in the schools on the whole has been good to excellent and satisfactory progress is being made by the pupils.

We now have thirty-one pupils in attendance at Berlin High School.

### ATTENDANCE

The average attendance for the last complete school year was 93.9%.

The Jewett School had the best record of attendance for the year with a mark of 97%. Illness among pupils was the principal and nearly the sole cause for a lowered attendance record during the past year.

### HEALTH

The medical inspection work for this year has been done by Mrs. Nina McCarthy, a nurse with some experience in school work. The pupils have all been inspected for this year and notices of any physical defects sent to parents. It is hoped that sometime a dental clinic may be arranged for the school children of Milan.

### FINANCES

It would seem that the schools this year are being carried on in the most economical way possible and that a considerable surplus will be held over at the end of the present school year. Consequently some reduction in the regular budget will in all probability be possible.
